SUMMARY

A graduate of the University of Auckland, I studied a Bachelor of Engineering (Honours) specialising in Engineering Science, a specialisation focused on advanced mathematics, statistics and computational analysis.

I am an aspiring Full-Stack Web Developer. I have professional software development experience from an internship at Orion Health, along with academic and personal experience. I love finding ways to make our everyday lives easier with technology and think that the web is a great platform to do so as it's so widely available.

In my spare time, I enjoy flying (I have my Private Pilot's Licence) and running.

WORK EXPERIENCE

PROJECT ADMIN ASSISTANT @ CLYNE & BENNIE PLUMBING

MAY 2016 -

Here I work as an assistant to the project managers, helping them prepare various documents. I also work as a CAD specialist, creating As-Built issue drawings of the hydraulic services for construction projects using AutoCAD LT.

FRONT OF HOUSE @ MISCEO CAFÉ & BAR

MAY 2016 - December 2016

After spending the early part of 2016 travelling around the US following the completion of my degree, I got a part-time job in a restaurant. This gave me valuable customer service skills.

INTERN DEVELOPER @ ORION HEALTH

November 2014 - February 2015

My first exposure to the software development industry, here I learned skills including Java, SQL, Git, SVN and SDLC. I worked on unit testing and a small individual project involving a Java maillet.

TUTOR @ ARDENT EDUCATION

August 2013 - November 2014

A part-time job while studying. I tutored high school students in maths and physics.

EDUCATION

UNIVERSITY OF AUCKLAND

BACHELOR OF ENGINEERING WITH HONOURS
ENGINEERING SCIENCE - 2015 (GPA 7.1/9.0)

CHRIST'S COLLEGE, CHRISTCHURCH, NZ

NCEA LEVEL 3 WITH EXCELLENCE - 2011
